Conference venue
The Faculty of Sport of the University of Porto displays modern and very well equipped facilities for sports and academic activities.
It is located at the "Asprela pole" of the University and is surrounded by the Faculty of Engineering, the Institute of Pathology and Immunology of the University of Porto (devoted to cancer research) and the Biotechnology Department of the Portuguese Catholic University. Since the University of Porto is an open institution, participants in the ISBS2011 will be very welcome in any one of these locations.
The "Asprela pole" of the University is well served of connections (metro, buses and taxis) to the city centre, the city historical and riverside centres, and the new social and business centre: Boavista.
During summer, the weather in Porto is quite attractive. It's warm (between 20 to 30°C), inviting for outdoor living, active leisure and friendships, and we have day light from 06.00 a.m. to 22.00 p.m.. Light clothes are recommended. A pull-over or a sweater may be useful at night. Sporting clothes are needed for the animated sports' activities organised during the congress or for those delegates that want to perform by their own at the sport facilities available at the congress venue (exercise room, tennis, squash, swimming pool, running circuit, or sauna).
Portuguese people are warm and friendly, very solicit, cooperative and peaceful. It's a safe country with low criminality, compared with most of the other European countries. Porto is, indeed, a safe city.

ISBS 2011
PORTO PORTUGAL

http://isbs2011.fade.up.pt

Strong points:

- Enthusiastic organizing team
- Easy to reach Porto, venue and city centre
- Support of the Universities (100th Anniversary of UPorto)
- Strong connection with sports practice (applied sessions!)
- Previous training / experience (BMS2006)
- Attractive to exhibitors (LABIOMEP)
- Cultural / social parallel events
- Paper published proceedings (indexed)

But particularly:

- Port wine
- Sunshine
- Inexpensive cost of life
- Touristic options

ISBS 2011
PORTO PORTUGAL

http://isbs2011.fade.up.pt

Weak points:

- There is a scientific programme to follow…

- Non-native English speaking people… but we will try our best!

Please, try with us…

Three Swedish switched witches watch three Swiss Swatch watch switches. Which Swedish switched witch watch which Swiss Swatch watch switch?
